# TOWN CLERK'S OFFICE SEEKONK, MASS.

#### Form 3

Commonwealth of Massachusetts

DEQE File No.	
1.4	(To be provided by DEQE)
City/Town	160
Applicant	

# Notice of Intent Under the

# Massachusetts Wetlands Protection Act, G.L. c. 131, §40 and Application for a Department of the Army Permit

	I: General Information
	Location: Street Address Montaup Electric Co., easement on Newman Avenue, Route 152  Lot Number 25
2.	Foundation  Project: Type Restoration Description Repairs to be made to existing eroding
_co	ncrete foundations. Eight out of 15 of these 4' x 4' foundations need repair
3.	Registry: County Bristol Current Book Book 741 & Page 565
	Certificate (If Registered Land)
4.	Applicant Montaup Electric Company Tel. (508) 678-5283
	Address P. O. Box 248, Somerset, MA 02726
5.	Property Owner Montaup Electric Company Tel. (508) 678-5283
	Address Same
6.	Representative <u>Eastern Utilities Service Corporation</u> Tel. (508) 559-1000
	Address P. O. Box 543, West Bridgewater, MA 02379
7.	Have the Conservation Commission and the DEQE Regional Office each been sent, by certified mail or hand delivery, 2 copies of completed Notice of Intent, with supporting plans and documents?

	Obtained:	Applied Fo	or:	Not Applied For:

#### Part II: Site Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe existing site conditions.

Identifying Number/Letter (of plan, narrative or calculations)	
	Natural Features:
	Soils
	Vegetation
16368	Topography
·	Open water bodies (including ponds and lakes)
	Flowing water bodies (including streams and rivers)
	Public and private surface water and ground water supplies on or within 100 feet of site
	Maximum annual ground water elevations with dates and location of test
	Boundaries of resource areas checked under Part I, item 11 above
	Other
	Man-made Features:
16395	Structures (such as buildings, piers, towers and headwalls)
	Drainage and flood control facilities at the site and immediately off the site, including culverts and open channels (with inverts), dams and dikes
	Subsurface sewage disposal systems
	Underground utilities
	Roadways and parking areas
	Property boundaries, easements and rights-of-way
	Other

#### Part III: Work Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe work proposed within each of the resource areas checked in Part I, item 11 above.

Identifying Number/Letter (of plan, narrative or calculations)	
	Planview and Cross Section of:
16395	Structures (such as buildings, piers, towers and headwalls)
	Drainage and flood control facilities, including culverts and open channels (with inverts), dams and dikes
	Subsurface sewage disposal systems & underground utilities
	Filling, dredging and excavating, indicating volume and composition of material
	Compensatory storage areas, where required in accordance with Part III, Section 10:57 (4) of the regulations
	Wildlife habitat restoration or replication areas
	Other
	Point Source Discharge
	Description of characteristics of discharge from point source (both closed and open
	channel), when point of discharge falls within resource area checked under Part I, item
	11 above, as supported by standard engineering calculations, data and plans, including

but not limited to the following:

- 1. Delineation of the drainage area contributing to the point of discharge;
- Pre- and post-development peak run-off from the drainage area, at the point of discharge, for at least the 10-year and 100-year frequency storm;
- 3. Pre- and post-development rate of infiltration contributing to the resource area checked under Part I, item 11 above;
- 4. Estimated water quality characteristics of pre- and post-development run-off at the point of discharge.

## Part IV: Mitigating Measures

- 1. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
  - (a) All measures and designs proposed to meet the performance standards set forth under each resource area specified in Part II or Part III of the regulations; or
  - (b) why the presumptions set forth under each resource area specified in Part II or Part III of the regulations do not apply.

☐ Coastal	Resource Area Type: Bordering Vegetated Wetland	Identifying number or letter of support documents
is	l material being placed around existing foundations only to replace what was removed during restoration foundations.	16395
sid	tration barriers have been installed on the east e (which bo rders the wetland) to prevent any sible sediment runoff.	16395

	100	

00	Coastai Inland	Resource Area Type:	Identifying number or letter of support documents
		N/A	3
			2)

- 2. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
  - (a) all measures and designs to regulate work within the Buffer Zone so as to ensure that said work does not alter an area specified in Part I, Section 10.02(1) (a) of these regulations; or
  - (b) if work in the Buffer Zone will alter such an area, all measures and designs proposed to meet the performance standards established for the adjacent resource area specified in Part II or Part III of these regulations.

חח	Coastal Resource Area Type Bordered By 100-Foot Discretionary Zone: Inland	Identifying number or letter of support documents
	See Part IV, Items 1 and 2 for description	
		20

## Part V: Additional Information for a Department of the Army Permit

1. COE Application No. \_\_\_\_\_\_ 2. \_\_\_\_\_ (Name of waterway)

3. Names and addresses of property owners adjoining your property:

- 4. Document other project alternatives (i.e., other locations and/or construction methods, particularly those that would eliminate the discharge of dredged or fill material into waters or wetlands).
- 5. 8½" x 11" drawings in planview and cross-section, showing the resource area and the proposed activity within the resource area. Drawings must be to scale and should be clear enough for photocopying.

Certification is required from the Division of Water Pollution Control before the Federal permit can be issued. Certification may be obtained by contacting the Division of Water Pollution Control, 1 Winter Street, Boston, Massachusetts 02108.

Where the activity will take place within the area under the Massachusetts approved Coastal Zone Management Program, the applicant certifies that his proposed activity complies with and will be conducted in a manner that is consistent with the approved program.

Information provided will be used in evaluating the application for a permit and is made a matter of public record through issuance of a public notice. Disclosure of this information is voluntary, however, if necessary information is not provided, the application cannot be processed nor can a permit be issued.

"This document contains a joint Department of the Army and State of Massachusetts application for a permit to obtain permission to perform activities in United States waters. The Office of Management and Budget (OMB) has approved those questions required by the US Army Corps of Engineers. OMB Number 0702-0036 and expiration date of 30 September 1983 applies". This statement will be set in 6 point type.
